Hi Randy. I never did receive the evidence requested for the entities who have signed the AOC without a General Notice letter from the EPA. Could you please send me one piece of evidence for each of the entities you mentioned in your Nov. 7, 2012 email. The evidence would hopefully be a manifest showing the entity sent a hazardous substance to the site. If not a manifest, perhaps a bill of lading or a shipping document might work.

Thanks

Randy, would you be able to provide one manifest for each of the parties that signed the AOC as a result of the Steering Committee's contact. (Meaning the EPA did not send a General Notice letter.) The manifest that I am interested in would need to show hazardous substance being sent to the Site. That means it would be a listed hazardous waste and use such a code as found in the Code of Federal Regulations 40 CFR 302.4 or it would have an "H" at the end of the State8 digit waste code indicating that the waste is hazardous.

Thanks for your help.
